**Re: Memorializing the New York State Legislature to Pass, and Governor Andrew M. Cuomo to Sign, S386/A1615, An Act to Provide for a Referendum on the Question “Do you support the division of New York State into two separate states?”**

Honorable Legislators:

Residents of Upstate New York have lived in the one of the most overtaxed and overregulated states in the Country. As Upstate continues to struggle, New York lawmakers continue to spend the entire State’s tax dollars in one region. The high tax rates used to fund New York City are driving businesses, jobs, and opportunity out of the state.

The Governor, Attorney General, Comptroller, and leaders of the Legislature are all from New York City or Long Island. Upstate New Yorkers are underrepresented in Albany and are left to struggle for economic opportunities while paying some of the highest taxes in the nation. The stark divide between Upstate New York and New York City has been apparent for decades, and the people of Upstate New York have expressed an interest in exploring options for seceding from New York City entirely.

S386 is sponsored by Senator Joseph E. Robach in the New York State Senate and calls for a referendum on the question “Do you support the division of New York State into two separate states?” This bill would authorize New York State to place this question on the ballot to determine whether New Yorkers truly believe that dividing the State into two separate entities would be beneficial. This referendum has no legal implications and would be used to measure support for this initiative.

Because Upstate New Yorkers do not have representation in Albany, it is imperative that we determine what they believe when it comes to the future of our State. This referendum is an inexpensive way to do so. Therefore, I urge you to join me in calling on the members of the New York State Legislature and Governor Andrew M. Cuomo to pass this bill that will include a referendum on the ballot to determine whether New Yorkers support the separation of New York into two states.

Respectfully Submitted,

**Re: Memorializing Congress to Pass and President Donald J. Trump to Sign, the Reducing Excessive Debt and Unfair Costs of Education (REDUCE) Act**

Honorable Legislators:

In December of 2017, President Donald Trump signed the Tax Cuts and Jobs Act, which included a provision that placed a 1.4 percent excise tax rate on net investment income for certain private colleges and universities. This decision also came at a time when college tuition has been at an all-time high, with student debt surpassing \$1 trillion.

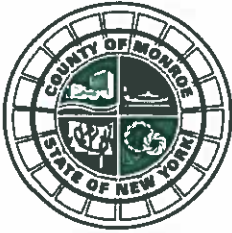

In response to this new provision and overall high tuition rates, Congressman Tom Reed (R-Ithaca) introduced legislation entitled the “Reducing Excessive Debt and Unfair Costs of Education (REDUCE) Act,” which incentivizes higher education institutions to use their endowments towards financial assistance for working families. The bill proposes a waiver for colleges and universities that spend 25 percent of their annual investment earnings on reducing their overall costs for middle-income families.

With tuition and student debt on the rise, this legislation would help families in our region, as well as all across the country. According to the Bureau of Labor Statistics, college tuition and fees have risen 157 percent over the last 20 years, while the Consumer Price Index on inflation rose just 52 percent over the same period. With the total of all college and university endowments standing at over \$550 billion in 2017, this 25 percent incentive would greatly help students and families everywhere.

Therefore, I urge you to join me in urging the members of Congress to pass and President Donald Trump to sign the Reducing Excessive Debt and Unfair Costs of Education (REDUCE) Act. The passage of REDUCE will ensure that working-class students and families receive the financial help that they need, while holding colleges and universities accountable for how and what they spend their endowment income on.

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body accept a grant from the New York State Canal Corporation, in the amount of \$39,424, for the New York State Canal Corporation (NYSCC) Marine Patrol Matching Grant Program, for the period of April 1, 2018 through March 31, 2019.

This grant will provide funds for the dedication of extra law enforcement patrols along the Erie Canal and Canal Way Trail in Monroe County. Therefore, NYSCC made the funds available to locally-administered police agencies. This money will be used to fund overtime for those deputies assigned to patrol the Erie Canal and Canal Way Trail. This will be the seventh year the County has received this grant. This year's funding is the same as the previous year.

### The specific legislative actions required are:

This grant is funded by the New York State Canal Corporation. No additional net County support is required in the current Monroe County budget.

**Subject:** Acceptance of Federal and State Aid for the Operation and Maintenance of the Rochester/Monroe County Traffic Control Center

Honorable Legislators:

I recommend that Your Honorable Body accept Federal and State Aid for the operation and maintenance of the Rochester/Monroe County Traffic Control Center (Control Center) and authorize a contract with the New York State Department of Transportation for reimbursement of all eligible expenses for the operation of the Control Center, in the amount of \$750,000, for the period of June 8, 2018 through June 30, 2019.

For many years Monroe County has received federal and state aid to fund the operation of the Control Center. The Control Center was recently awarded funding to continue to provide for congestion management at local signalized intersections by a central computer that maintains and improves acceptable levels of service to reduce congestion. The Control Center provides efficient traffic operations and congestion management at local signalized intersections through the Intelligent Transportation System, which is a combination of a centralized traffic signal system and a network of closed circuit traffic monitoring cameras. This system allows the Control Center to provide reliable and consistent traffic signal operation, continuously monitor traffic conditions, and make real time adjustments to the traffic signal operation to accommodate changes in traffic flow and in response to traffic incidents.

The breakdown of the funding is as follows:

Federal Aid	\$600,000
State Aid	\$ 37,500
Local Share	<u>\$112,500</u>
Total	\$750,000

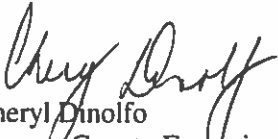

**The specific legislative action required is to authorize the County Executive, or her designee, to accept Federal and State Aid from, and to execute a contract with, the New York State Department of Transportation, for reimbursement of all eligible expenses for the operation of the Rochester/Monroe County Traffic Control Center, in the amount of \$750,000, for the period June 8, 2018 through June 30, 2019, along with any amendments necessary to complete the project, within the annual operating budget appropriations.**

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

Funding for this contract is included in the 2018 operating budget of the Department of Transportation, road fund 9002, funds center 8004020000, Traffic Control Center, and will be requested in future years' budgets. No additional net County support is required in the current Monroe County budget.

**Subject:** Amend the 2018 Capital Budget and Bond Resolution 245 of 2017 to Provide an Increase in Funding for the Monroe County Reflective Backplate Project

Honorable Legislators:

I recommend that Your Honorable Body amend the 2018 Capital Budget and Bond Resolution 245 of 2017 to provide an increase in funding, in the amount of \$50,000, for the Monroe County Reflective Backplate Project.

Work for the Monroe County Reflective Backplate Project includes the installation of reflective backplates at all Monroe County owned intersections that are signalized with mast arms. There are currently insufficient funds available for the project due to increased costs since it was initially programmed in the Capital Improvement Program. The increase is due to construction inspection requirements by the New York State Department of Transportation that were not originally anticipated. This cost is 97.5% reimbursable by Federal and State aid.

**The specific legislative actions required are:**

1. Amend the 2018 Capital Budget to increase funding for the Monroe County Reflective Backplate Project, in the amount of \$50,000 from \$250,000 to \$300,000, for a total project authorization of \$300,000.
2. Amend Bond Resolution 245 of 2017 to increase financing for the Monroe County Reflective Backplate Project, capital fund 1859, in the amount of \$50,000, from \$250,000 to \$300,000, for a total project authorization of \$300,000.

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

Funding for this contract, consistent with authorized uses, will be included in capital fund 1859 once the additional financing authorization requested herein is approved and in any capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Acceptance of a Grant from the New York State Division of Criminal Justice Services for the 2018-2019 Aid to Crime Laboratories Grant Program (Office of the Medical Examiner)

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Division of Criminal Justice Services, in the amount of \$85,090, for the 2018-2019 Aid to Crime Laboratories Grant Program, related to the Office of the Medical Examiner, for the period of July 1, 2018 through June 30, 2019.

The purpose of the current grant is to support ongoing services provided by the Office of the Medical Examiner's Forensic Toxicology Laboratory ("Tox Lab"), to provide the quality control oversight required to maintain American Board of Forensic Toxicology accreditation and New York State certification, and to assist the Tox Lab in reducing backlog related to instrumentation. The Tox Lab serves law enforcement agencies, District Attorneys' offices and constituents in the County.

Funds will be used for preventive and routine maintenance on a Liquid Chromatograph/Mass Spectrometer/Mass Spectrometer instrument, which enhances the analytical capabilities of the Tox Lab. Additionally, this grant provides funding for salary and benefits of existing staff. This will be the twenty-second year the County has received this grant. This year's funding represents the same amount as last year.

### The specific legislative actions required are:

1. Authorize the County Executive, or her designee, to accept a \$85,090 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services, for the 2018-2019 Aid to Crime Laboratories Grant Program, related to the Office of the Medical Examiner, for the period of July 1, 2018 through June 30, 2019.
2. Amend the 2018 operating budget of the Department of Public Health by appropriating the sum of \$40,090 into general fund 9300, funds center 5804020000, Forensic Laboratory.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.
4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

Environmental assessments were completed for this action and it was determined that there would be no significant effect on the environment.

Partial funding for this grant is included in the 2018 operating budget of the Department of Public Health, general fund 9300, funds center 5804020000, Forensic Laboratory. The appropriated amount will adjust the current funding to that established by the grant.

This grant is 100% funded by the New York State Division of Criminal Justice Services. No additional net County support required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.
