RE: Memorializing the United States Congress to Pass the Obtain and Direct the Placement in the Capitol or on the Capitol Grounds of a Statue to Honor American Humanitarian and Star Athlete Roberto Clemente of Puerto Rico

Honorable Legislators:

Roberto Clemente was a remarkable baseball player amassing four batting crowns, twelve Gold Glove Awards, and the 1966 National League Most Valuable Player Award. He was also the first player from Latin America to collect 3,000 hits, which he achieved in the final regular season at-bat of his career. Although Clemente also helped lead the Pittsburgh Pirates to two World Series championships during his career, his efforts off the field are equally as impressive, as he fought for economic and social justice.

Born in Carolina, Puerto Rico in 1934, Clemente signed his first big-league contract as a teenager. Once on the mainland United States, however, he encountered the horrors of Jim Crow segregation. Clemente endured being forced to stay in a rooming house instead of the team hotel during spring training, prevented from eating in the same restaurants as his teammates, prohibited from playing in team golf tournaments, excluded from a welcome luncheon hosted by a local boosters club, and removed from an exhibition game in Birmingham, Alabama.

After being subjected to such discrimination by both the public and by the team itself, Clemente, in an attempt to protect his fellow Black and Latino teammates, insisted that the general manager of the team take action to address the situation. Clemente's vocalization of issues facing his teammates and the nation, as well as his activism were inspired, in part, by one of his heroes, Martin Luther King Jr.

Along with his fight against Jim Crow, Clemente also sought to use his position to help young people, since he "saw baseball as a means for bettering the lives of Puerto Rico's children

– just as the sport had done for him.” He held baseball clinics all across the island, teaching thousands of children, especially those from poorer households, how to play the game and, in his own words, about the “importance of being a good citizen.”

Clemente’s efforts, however, extended beyond Puerto Rico, as he and his wife, Vera, traveled to Nicaragua, where he managed a team in the world amateur baseball championships. While there, Clemente and his wife fell in love with the place and the people. When a massive earthquake struck the capital city of Managua, Clemente organized a massive relief effort, raising over \$150,000 in donations and collecting over 26 tons of food, clothes, and medicine. Wanting to ensure that the supplies were safely delivered and actually reached those in need, Clemente planned to fly with the items to the disaster zone. But, unbeknownst to him, the plane had been damaged and was also overweight. One of the engines failed on takeoff and the plane crashed just off the coast of Puerto Rico, killing all five people onboard, including Clemente.

The baseball writers dispensed with the usual five-year waiting period in inducting Clemente into the Hall of Fame posthumously in 1973. Upon induction, he became the first Latin-American and the first Caribbean to enter into the halls of Cooperstown. Clemente arguably remains the most prominent figure and a hero to all generations of Puerto Ricans.

H.R. 4065: To Obtain and Direct the Placement in the Capitol or on the Capitol Grounds of a Statue to Honor American Humanitarian and Star Athlete Roberto Clemente of Puerto Rico will ensure the remembrance of a renowned baseball player and a remarkable humanitarian.

We encourage the members of the United States House of Representatives and the United States Senate to pass this legislation honoring Roberto Clemente and his lifetime of work. We also urge President Biden to follow suit and sign this into law.

RE: Memorializing the United States Congress to pass the Bridging the SNAP Gap Act of 2023, the Enabling Farmers to Benefit from Processing Nutrition Programs Act of 2023, and the Food Secure Strikers Act of 2023.

Honorable Legislators:

No American should have to worry about how they will afford their next meal. We encourage the United States Congress and the President to enact the following package of legislation to expand the Supplemental Nutritional Assistance Program (SNAP):

Bridging the SNAP Gap Act of 2023 (S. 2432/H.R. 4815): Will increase families' likelihood of qualifying for SNAP by expanding the medical expense deduction and limiting age exclusions from income.

Enabling Farmers to Benefit from Processing Nutrition Programs Act of 2023 (S. 2504): Will support the community by ensuring SNAP recipients have direct access to farm-fresh products and increasing the customer-pool for local farmers.

Food Secure Strikers Act of 2023 (S. 2553/H.R. 4845): Will support our union workers by ensuring eligible members of striking workforces continue to receive SNAP benefits throughout the duration of work stoppages and strike days.

Every month, families across America are forced to choose between buying groceries or spending their funds on other basic needs, such as housing and health care. In 2022 alone, approximately 21.6 million households relied on monthly SNAP benefits to provide for their families. Data shows that not only does SNAP lift people out of poverty, boost children's health, and help senior citizens continue to live independently, but generates economic activity benefiting local and regional workforces as well.

Each piece of legislation in this packet aims to improve SNAP benefits by amending the Food and Nutrition Act of 2008. The Bridging the SNAP Gap Act of 2023 proposes raising the

maximum age for which the income of an individual currently enrolled in elementary or secondary school can be excluded from the total household income, for purposes of SNAP benefits, from 17 to 21. Further, the bill seeks to expand the medical expense deduction to include households without an elderly or disabled member.

The Enabling Farmers to Benefit from Processing Nutrition Programs Act of 2023 focuses primarily on streamlining the application process for farmers to become vendors under certain nutrition programs, including SNAP. Streamlining this process would greatly increase the ease of which farmers are able to sell their products directly to SNAP recipients; thus allowing SNAP recipients greater access to fresh produce and other farm products, and increasing potential sales for our farmers. Additionally, this bill will support the community by ensuring electronic benefit transfer point-of-sale equipment and systems, provided by state agencies, are suitable to the entity the equipment/systems are being dispensed to.

Following a 52% increase in strikes from 2021 to 2022, the Food Secure Strikes Act of 2023 seeks to amend the Food and Nutrition Act of 2008 so that workers may continue to receive their SNAP benefits while on strike. Furthermore, the act will eliminate the condition that an individual must provide the state with information to determine said individual's employment status or job availability in order to receive SNAP benefits.

This package of legislation will help to lift Americans out of poverty and ensure our citizens are able to secure nutritional food for their families. We encourage the members of the Senate and the House of Representatives to pass this package of legislation to expand SNAP benefits. We also urge President Biden to follow suit and sign this into law.

RE: Memorializing the United States Congress to Pass the Maternal Health for Veterans Act.

Honorable Legislators:

Maternal morbidity is a grievous problem currently affecting families throughout our nation. Between 2018 and 2021, the number of yearly maternal deaths in the United States increased by 83%. Amongst veterans and women of color, these numbers are even greater; in fact, new research from the U.S. Department of Veteran Affairs' Center for Health Equity Research and Promotion suggests maternal mortality rates amongst veterans are nearly double that of civilian mothers in the United States.

This bill, S.2026, introduced by Senator Tammy Duckworth, aims to collect data on and support maternal health coordination within the Department of Veteran Affairs. Through this bill, the Secretary of Veteran Affairs will submit an annual report to Congress, providing a compendium of the department's maternal health care activities, programs, and resources, along with data on the maternal health outcomes of veterans and recommendations on how to improve such outcomes. Additionally, this bill seeks to authorize the annual appropriation of \$15,000,000 to the Secretary of Veteran Affairs through 2028 to support the coordination of maternal health care for pregnant veterans.

S.2026: The Maternal Health for Veterans Act will provide up-to-date information, targeted recommendations, and an influx of capital to the Department of Veteran Affairs, thus helping to ensure the improved maternal health of our nation's heroes.

We encourage the members of the Senate and the House of Representatives to pass this legislation to support maternal health care coordination within the Department of Veterans Affairs. We also urge President Biden to follow suit and sign this into law.

RE: Memorializing the United States Congress to Pass the Paycheck Fairness Act.

Honorable Legislators:

Women fill critical roles in our society, but are still subject to lower wages. In 2020, women made 83 cents for every dollar earned by men, according to the U.S. Census Bureau. It would take roughly 40 additional days of work for women to earn a comparable wage. Those numbers are even more staggering when you look at racial disparities. For example, according to The U.S. Department of Labor, in 2020, Black women were paid 64% and Hispanic women 57% of what White non-Hispanic men were paid.

This bill, S.728, introduced by Senator Patty Murray, seeks to address wage discrimination on the basis of sex through an enhancement of non-retaliation protections and an increase in civil penalties for violations of equal pay measures. An employer, through this bill, would also be unable to require an employee sign a contract preventing them from disclosing wage information and would be limited to using job-related factors as defense in wage discrimination claims.

Education on the issue of wage discrimination and raising awareness on how it can present itself in the workplace is another key component of this bill. Thus, the Equal Employment Opportunity Commission (EEOC) and the Office of Federal Contract Compliance Programs would be required by this legislation to train EEOC employees and other impacted parties on wage discrimination. Furthermore, the Department of Labor would be directed to conduct studies on the issue of and how to eliminate pay disparities, make information on wage discrimination available to the public, and establish a grant program for negotiation skills training for women.

S.728: The Paycheck Fairness Act will issue regulations for the workplace, thus helping to ensure that pay discrimination is eradicated.

We encourage the members of the Senate and the House of Representatives to pass this legislation to create equality in pay regardless of gender in the United States. We also urge President Biden to follow suit and sign this into law.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The only impacts determined on Part 1 of the EAF indicates that the site is on or near wetlands. The proposed action includes work in or on the banks of the unnamed stream (NHD:846-136) which is classified as a class "C" Stream, no other wetlands are present on site. Although, a class C stream is not classified as a protected stream under the Protection of Water Program, Monroe County has started a consultation with the NYS DEC to determine appropriate regulations and work to be performed and will work within all necessary regulations. Accordingly, no or small impacts will occur as all work will be within permitted regulations. No other impacts have been identified.

Accordingly, this proposed action will not result in any significant adverse environmental impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The environmental mapper indicates the site is located in or adjacent to an area designated as sensitive for archaeological sites on the State Historic Preservation Office (SHPO) archaeological site inventory. Upon review of the NYS Culturally Resource Information System (CRIS) for archaeologically sensitive areas within the project area it appears archaeologically sensitive areas are adjacent to and not within the permanent easement being acquired. Additionally, the permanent easement is adjacent to the right-of-way of the road and existing commercial development, both of which are previously disturbed areas.

Accordingly, the acquisition of a permanent easement along Calkins Road for traffic signal #225 will not result in any significant adverse environmental impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Acceptance of Federal and State Aid for the Operation and Maintenance of the Regional Traffic Operations Center

Honorable Legislators:

I recommend that Your Honorable Body accept Federal and State Aid for the operation and maintenance of the Regional Traffic Operations Center ("RTOC") and authorize a contract with the New York State Department of Transportation for reimbursement of all eligible expenses for the operation of the RTOC in the amount of \$1,275,000 for the period July 1, 2023 through June 30, 2024.

For many years Monroe County has received federal and state aid to fund the operation of the RTOC. The RTOC was recently awarded funding to continue to provide for congestion management at local signalized intersections by a central computer that maintains and improves acceptable levels of service to reduce congestion as well as for eligible RTOC facility expenses. The RTOC provides efficient traffic operations and congestion management at local signalized intersections through the Intelligent Transportation System, which is a combination of a centralized traffic signal system and a network of closed circuit traffic monitoring cameras. This system allows the RTOC to provide reliable and consistent traffic signal operation, continuously monitor traffic conditions, and make real time adjustments to the traffic signal operation to accommodate changes in traffic flow and in response to traffic incidents.

The breakdown of the funding is as follows:

Table with 2 columns: Funding Source, Amount. Rows: Federal Aid (\$1,020,000.00), State Aid (31,237.50), Local Share (223,762.50), Total (\$1,275,000.00)

The specific legislative action required is to authorize the County Executive, or his designee, to accept Federal and State Aid from, and to execute a contract with, the New York State Department of Transportation for reimbursement of all eligible expenses for the operation of the Regional Traffic Operations Center in the amount of \$1,275,000 for the period July 1, 2023 through June 30, 2024, along with any amendments necessary to complete the project, within the annual operating budget appropriations.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and is not subject to further review under the State Environmental Quality Review Act.

This contract is revenue generating and no net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body increase the contract amount with PrimeCare Medical of New York, Inc. by \$275,000 from an amount not to exceed \$38,371,331.33 to an amount not to exceed \$38,646,331.33 (\$12,689,290.78 in the first year, \$12,786,719.49 in the second year, and \$13,170,321.06 in the third year, subject to annual appropriation) for the period of January 14, 2023 through January 13, 2026.
