If after a reasonable period of time following such petition to the County Legislature a part-County health district has not been established in the County, which proposed district, in the opinion of the State Health Commissioner, meets with standards of administration, service and work necessary to qualify for state aid, the State Health Commissioner may refuse state aid reimbursement of expenditures made by such city or cities having a population of 50,000 or more and which are not to be included in the proposed County or part-County health district, until such part-County or County health district has been established or until such petition has been withdrawn. Whenever the provisions of this section shall have been proposed to be adopted in the County and proceedings have been taken to establish a County or part-County health district within the County, the County Legislature shall notify the State Health Commissioner, in writing, of the proposed establishment of such County or part-County health district and in such notice shall state the extent of the territory intended to be included within such district. The consent of the State Health Commissioner to the establishment of any such health district shall be evidenced by a certificate, setting forth the approval of the State Health Commissioner to the establishment of such health district.
