PLAN FORWARD

What's a County Plan?

Plan Forward will set goals for the County based on feedback from people who live, work and play here.

Counties are well positioned to understand the needs and aspirations of the towns, villages, and cities within them, as well as understand the relationships between those places. The tools the county uses to shape the landscape and the lives of the people within it are different from those of towns or villages. A comprehensive plan will guide Monroe County in using its tools and abilities such as funding programs, capital improvements, and projects to meet the needs of all residents of Monroe County.
